Hello! Bonjour! Goede dag! Приветствую! Вітаю!

More than 2 years of active learning of Web-Design, Development, AI and more than 10 years of experience in digital marketing, organising events in different countries developed in me strong organisational, presentational, analytical, communicational and leadership skills, good technical basis, opened new horizons and made me more adaptive to new environments and challenges.

I believe I can be this bridge or interpreter – Business Analyst – between all project stakeholders and technical team in order to make a smooth digital transformation and achieve business objectives.

Experience
